Quality Rehabilitation has identified five tenants of success:

- Employ and support highly skilled, compassionate therapists
- Develop trusting partnerships with clients through frequent communication and fair practices
- Manage by educating and respecting all parties and operating with fiscal responsibility
- Maintain and encourage openness to change, new ideas and policies
- Incorporate an appreciative model with genuineness

At Bethany Health Care Center, Quality Rehabilitation Services provides occupational therapy, physical therapy and speech language pathology services to residents and out-patients. Quality Rehabilitation Services has the benefit of enjoying a large, loyal following of highly skilled therapists of all three disciplines (OT, PT & SLP).

Quality Rehabilitation Services and Bethany Health Care Center are expanding the facility's out-patient presence to accommodate the unmet rehabilitation needs of the Metro West and surrounding communities. Bethany's scenic campus in conjunction with our highly skilled therapy team creates a compassionate and convenient setting to serve the rehabilitation needs of local residents.
